Roadmap – Let's grow together

Using the **Mediatel Data** custom products, you can quickly benefit from up-to-date innovative business communications solutions that meet the evolving demands of the current, challenging, market needs.

In the last year, we have given more importance to **artificial intelligence** and thus we have developed a series of products such as **voice biometrics**, **voice bot**, **email bot**, **virtual assistant**, and **script adherence**, designed in line with the needs and expectations of customers.

To continue providing human interactions in a digital world, you need to turn on digital technologies that support rather than replace humans.

Success stories

Communication plays a vital role in human life

Over the years, communication has changed significantly.

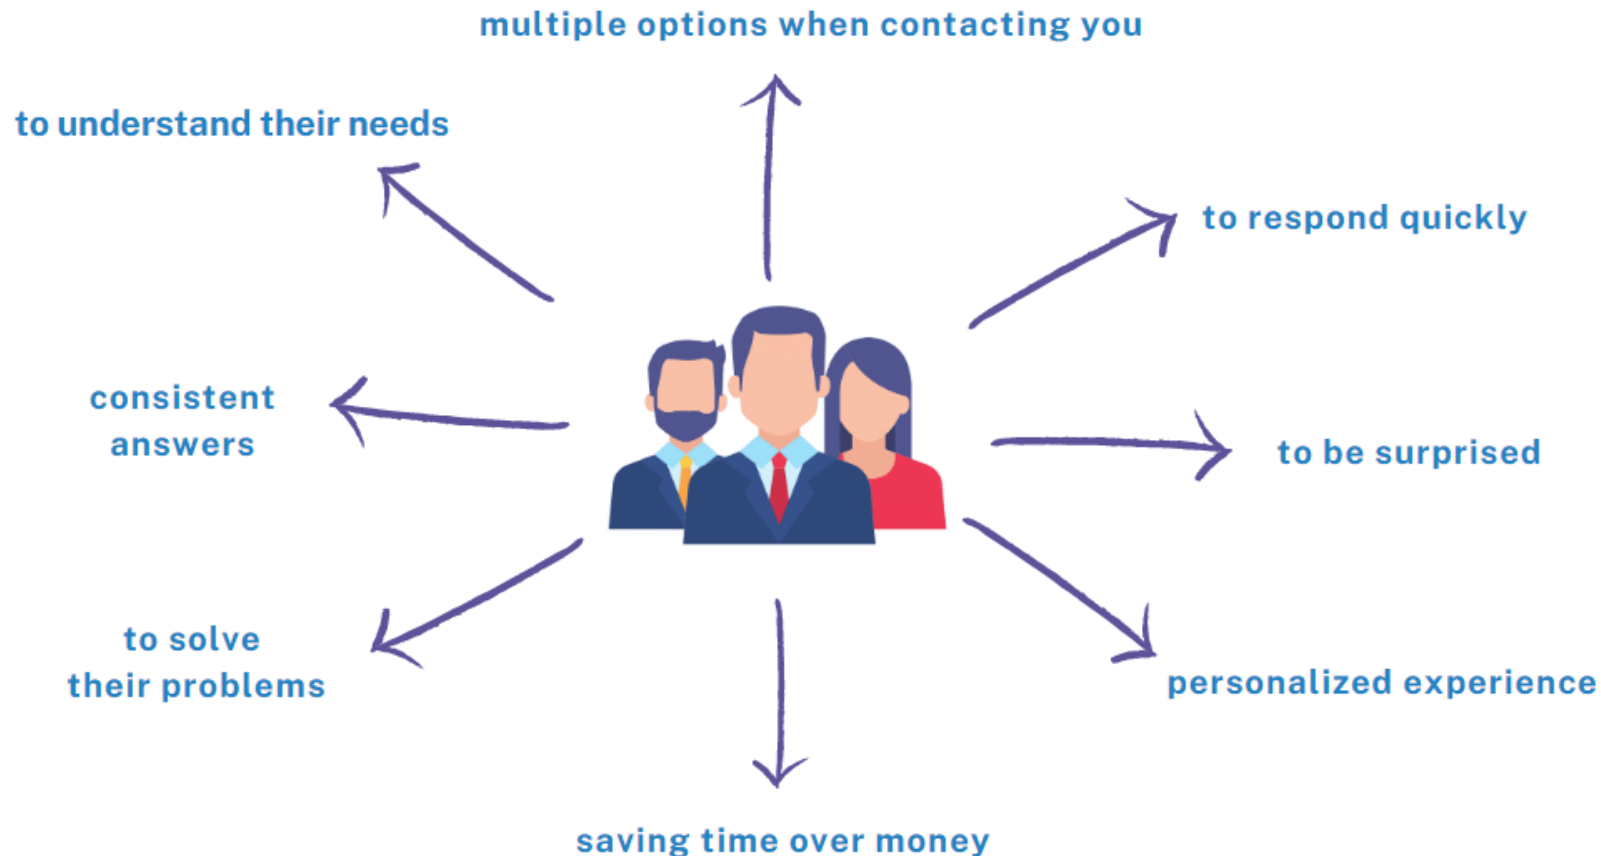

There are many things that impacted the progression of communication such as **social dynamics**, and **technology**.

The communication flow has been somewhat reliant on devices and software and in the last **12 months** there has been a growing demand for **chatbots**.

Customers expect you to have exactly **what they want!**

8 Things Customers Want and Expect

Chatbot Statistics

- **1.4 billion** people are using chatbots (Acquire.io)
- Chatbots can answer **80%** of standard questions (IBM)
- **67%** of customers used chatbots in the past year (Invesp)
- **58%** of users say chatbots have changed their expectations of customer service (SalesForce)
- **37%** of people use a customer service bot to get a quick answer in emergencies (Drift)
- Interest in chatbots increased by **160%** in 2018 (Gartner)

Mediatel Data CHATBOT

...and because more than **87% of customers** expect conversations with customer service representatives, to **move seamlessly and in real-time between channels**, **chatbots** become a need of every organization.

The **chatbot** developed by Mediatel Data has **applicability in different industries** and appeared as **a result of the need to interact and relate in an innovative and much more attractive** way with clients, thus solving their problems more easily.

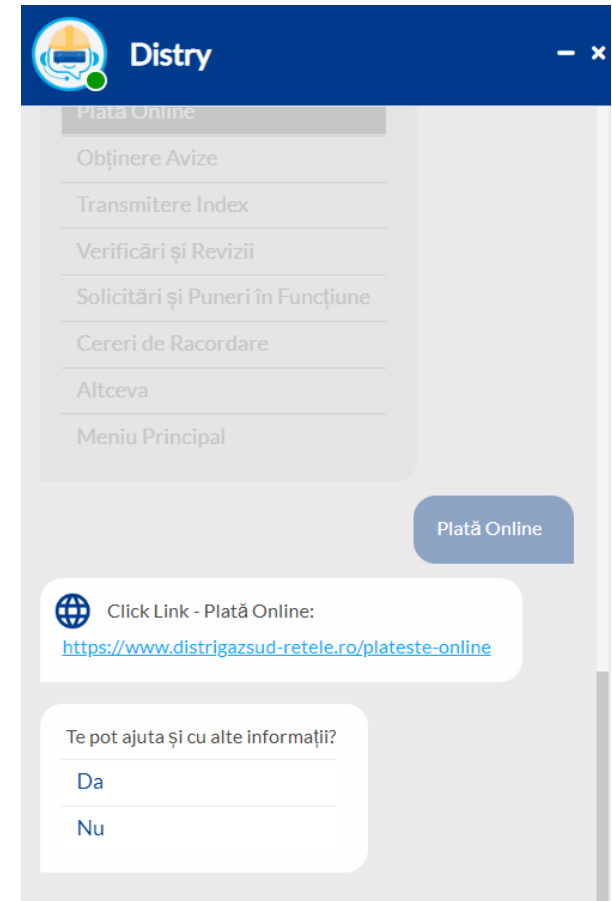

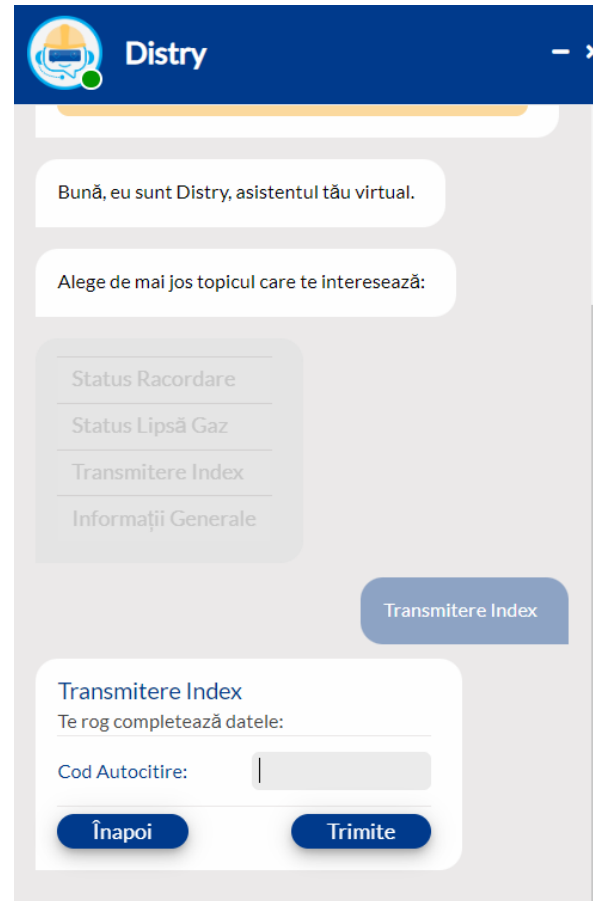

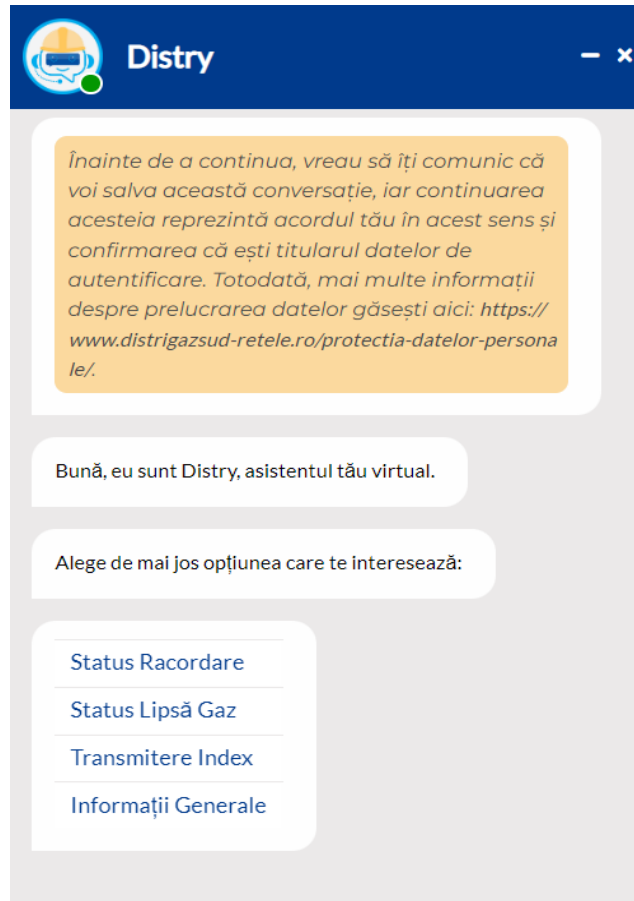

Functionalities of Mediatel Data CHATBOT

- ⚙ Instant & consistent answers
- ⚙ Programmability & customization
- ⚙ Integrated ecosystem
- ⚙ Identifies intents and entities in NLP
- ⚙ The Chatbot uses additional questions in order to make sure the intent is clear
- ⚙ Focused on automatic activities, similar to an IVR system within telephone interactions
- ⚙ Identifies/authenticates the client according to specific data
- ⚙ The interaction takes place by offering the client several options/buttons or forms to fill out
- ⚙ Specific integrations can be built with external applications or dedicated databases
- ⚙ Transfer the chat to a live operator with full conversation history when the bot cannot handle the case
